**Stainless Rim Wheels** for the Boxer are an option extra. They are 5 Spoked ,50cm dia with a 25mm rim. The fitting is a taper so requires a puller to remove it.  
(see below)

**Stainless Steel Rim Wheels** for Kudos are 5 Spoked, 42cm Dia and are dished for a comfort operation. Taper fitting requiring a puller to remove it.  
(see below)

**Steel Rim Wheels** are standard for the Boxer press and are 4 Spoked 52cm dia with a 25mm rim, finished in powder coated Gunmetal colour. Dished for comfort and easily removed.

**Steel Rim Wheel** for Kudos and Gem Press are 4 Spoked , 44cm dia with a 19mm rim, finished in a powder coated paint Gunmetal in colour. These wheels are also dished for comfort and are also easily removed.  
(see below)

**Spoked Star Wheels** for the Gem are 4 spoked and easily removed , screw in and out.

**Spoked Star Wheels** for the Pequeno and Piccolo Presses are 4 Spoked and are easily removed for transport.

They are angled outward for a comfort feel.

The spokes are fitted to the top roller so that the press can be placed on any flat surface without the need for a overhang. The standard is 3 Spoke but an extra spoke can be added for £15.

Round knobs or conical knobs (as shown) are both available. (see below)

The **Crank Handle** is the Standard option for all **bench presses**.  
It has a balanced counterweight to assist operation.  
It is easily removed and fitted using two cap screws.  
An allen key is provided.
