

Rollaco Presses

Pequeno series

Light weight

- **Type or print** - All intaglio/ etchings, engravings and woodcuts.
All relief , linocuts and collographs.
- **Bed size and** - One size 30 cm x 60 cm x 10mm - 25 kgs
- **Construction** - All steel welded construction. Designed for portability as well as strength. Three spoke star wheel provides the drive through the top roller with the spokes detachable for transport.
Top roller diameter - 88mm .Top roller diameter - 76mm
Beds are made from a industrial grade composite , a state of the art material with a proven record. Beds are fitted with safety stops.
The press is finished in a synthetic hammer finish paint.
- **Adjustment** - By screw down toggle bars which allow the top roller to be raised or lowered to any position up to 22mm above the bed.
- **Mounting** -By free standing on rubber feet which gives a good level of stability.
- **Maintenance** -As with all presses bare metal surfaces need to be protected in damp environments
Equally at home with etching, dry point as well as relief work
this press is the ideal as excellent demonstrator model.
