

Rollaco Presses

Pequeno series

- **Type or print** - All intaglio/ etchings, engravings and woodcuts.
All relief , linocuts and collographs.
- **Bed size** - One size 30 cm x 60 cm (71cm) x 10mm - 33 kgs
- **Construction** - All steel welded construction. Direct drive to top roller via a three spoke star wheel. Spokes are removable for transport. Heavy duty ball bearings are used throughout , requiring less effort for turning. Rollers are made from heavy gauge steel tube with centre shafting, machined to a fine tolerance then polished.
Top roller diameter - 88mm
Bottom roller diameters - 76mm
Beds are made from a industrial grade composite , a state of the art material with a proven record. Beds are fitted with safety stops. The press is finished in a synthetic hammer finish paint.
- **Adjustment** - By screw down toggle bars which allow the top roller to be raised or lowered to any position up to 25mm above the bed.
- **Mounting** -On any tables, benches by free standing on rubber feet or feet removed and fastened to a surface.
- **Maintenance** - Bearings are pre-packed with grease and are capable of many years normal service. As with all presses bare metal surfaces need to be protected in damp environments.
